Durable Decking & Railing Systems

It's Your Choice. We Just Make It Easier.

## 2021 Decking & Railing Catalog

BY **Barrette**  
OUTDOOR LIVING 

# Nature knows

# how to deliver a beating.

## DuraLife decking & railing is built to weather any weather.

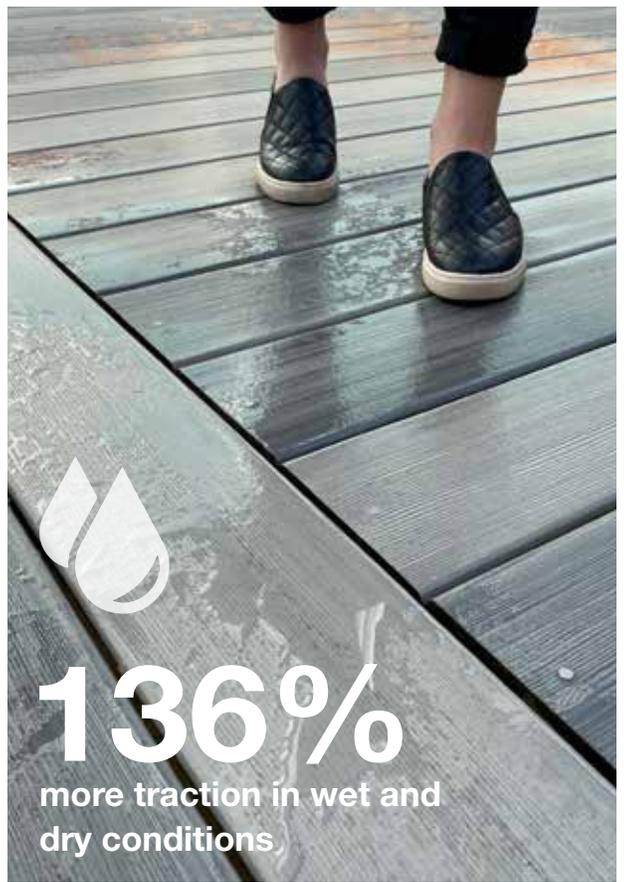

All winter long, howling winds rattle the windows and shake the trees. Snow and ice billow and spit. In summer, the long, bright days are lit with hot sun, book-ended with golden light, chill, fog, pounding showers, and flashing lightning. And you'll have peace of mind knowing that your DuraLife decking & railing is made to weather the weather—sun, snow, ice, rain, and wind. Every DuraLife product is field tested, in-house laboratory tested, and third party tested to ensure the exceptional durability and performance.

DuraLife decking is designed to stand up to the harshest weather conditions. Unmatched in strength and durability, DuraLife's **CoolTrac™** outperforms other composites and PVC decking products, and **SolarGuard®** ensures that DuraLife decking resists fading or staining, while minimizing contracting and expanding. Our patented **Step-Clip®** Hidden Fastening System makes installation easy and reduces install time by up to 50%.

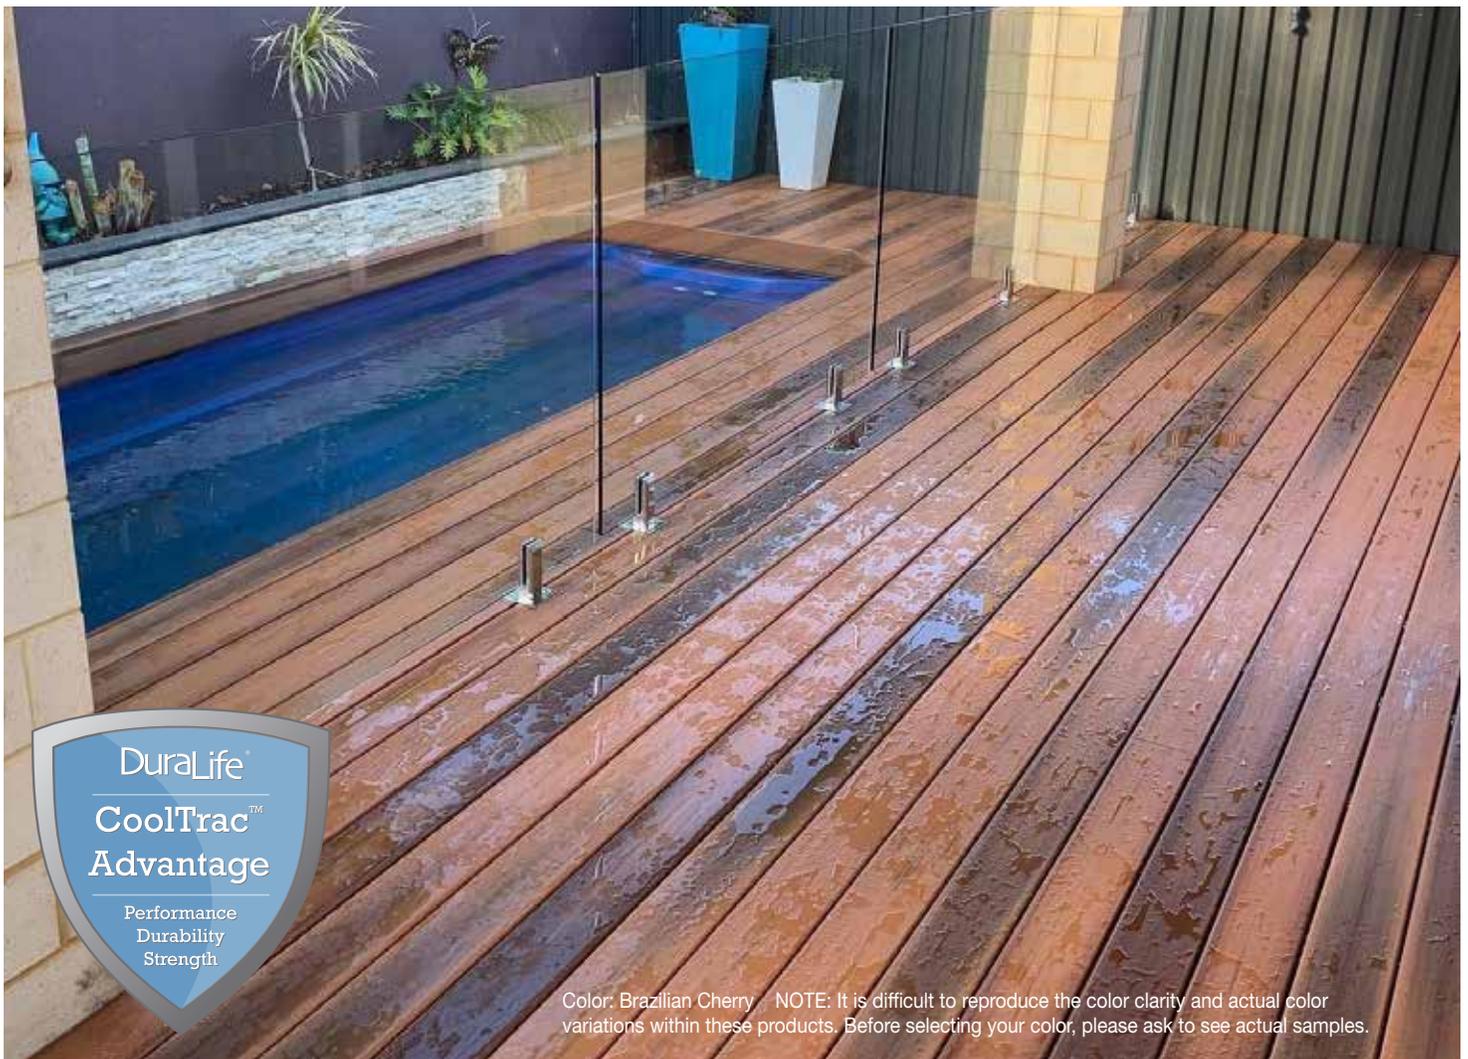

Get ready to weather any weather, with DuraLife composite decking. Order samples, delivered straight to your door: **[DuraLifeDecking.com/Samples](https://DuraLifeDecking.com/Samples)**.

# DuraLife's CoolTrac™ Advantage

A unique polypropylene & hardwood composite that outperforms other composite & PVC decking products

## Heat Resistant

Decking, under summer sun, can get extremely hot and very uncomfortable to walk on with bare feet. While all composite decks will absorb the heat, DuraLife decking, featuring CoolTrac, was designed specifically to provide a unique solution to that problem.

DuraLife decking, featuring CoolTrac, is engineered to stay much cooler than other composite deck boards. Featuring a polypropylene cap that you walk on, DuraLife deckboards are over **18% cooler** than traditional composite decking.\*

## Slip Resistant

For maximum safety and peace of mind, DuraLife decking, featuring polypropylene, is the far superior composite deck choice for slip resistance and traction when walking. Whether in dry conditions, or wet from rain or pool water, you can be assured that your deck will be safe to walk on.

DuraLife decking is **136% more slip resistant than competition when wet** and **56% more slip resistant than competition when dry.\*\***

*\*Results based on testing of similar deck colors – tested via ASTM D4803.*

*\*\*Based on testing complying to ANSI/NFSI standards.*

# YOUR deck, your choice.

## Find the deck that fits your life with DuraLife Choices.

A deck is more than a deck – it's a staging ground for fun, laughter, and memories. So whether you use your deck for grilling, soaking up the sun, reading, dining, playing, partying – or all of the above – you need a deck that delivers. Here are four easy steps to achieve your deck design goals:

1

Pick your  
**DECKING  
COLOR**

Choose a color to achieve your desired deck aesthetics. A variety of Variegated and Non-Variegated color options are available in our Hardwoods™ and Landscapes™ Collections.

2

Pick your  
**DECKING  
PROFILE**

Choose a deck profile to achieve the performance you desire. Select from our Siesta™ or MVP™ Profiles for the performance level you need at the price you want. Add a finished look with our Starter, Riser, or Fascia boards.

3

Pick your  
**DECK  
RAILING**

Choose a railing system to complement your deck and complete your deck design. Bella Premier Series, Select Series™, VersaRail®, and Concord™ railing systems add beauty, individuality, and safety to any design.

4

Pick your  
**DECK  
ACCESSORIES**

Complement your deck by adding LED lighting for atmosphere, or privacy with Decorative Screen Panels or Lattice.

The decking for people

# Custom Length Program

Your choice in length - perfect for large jobs that require non-standard lengths.

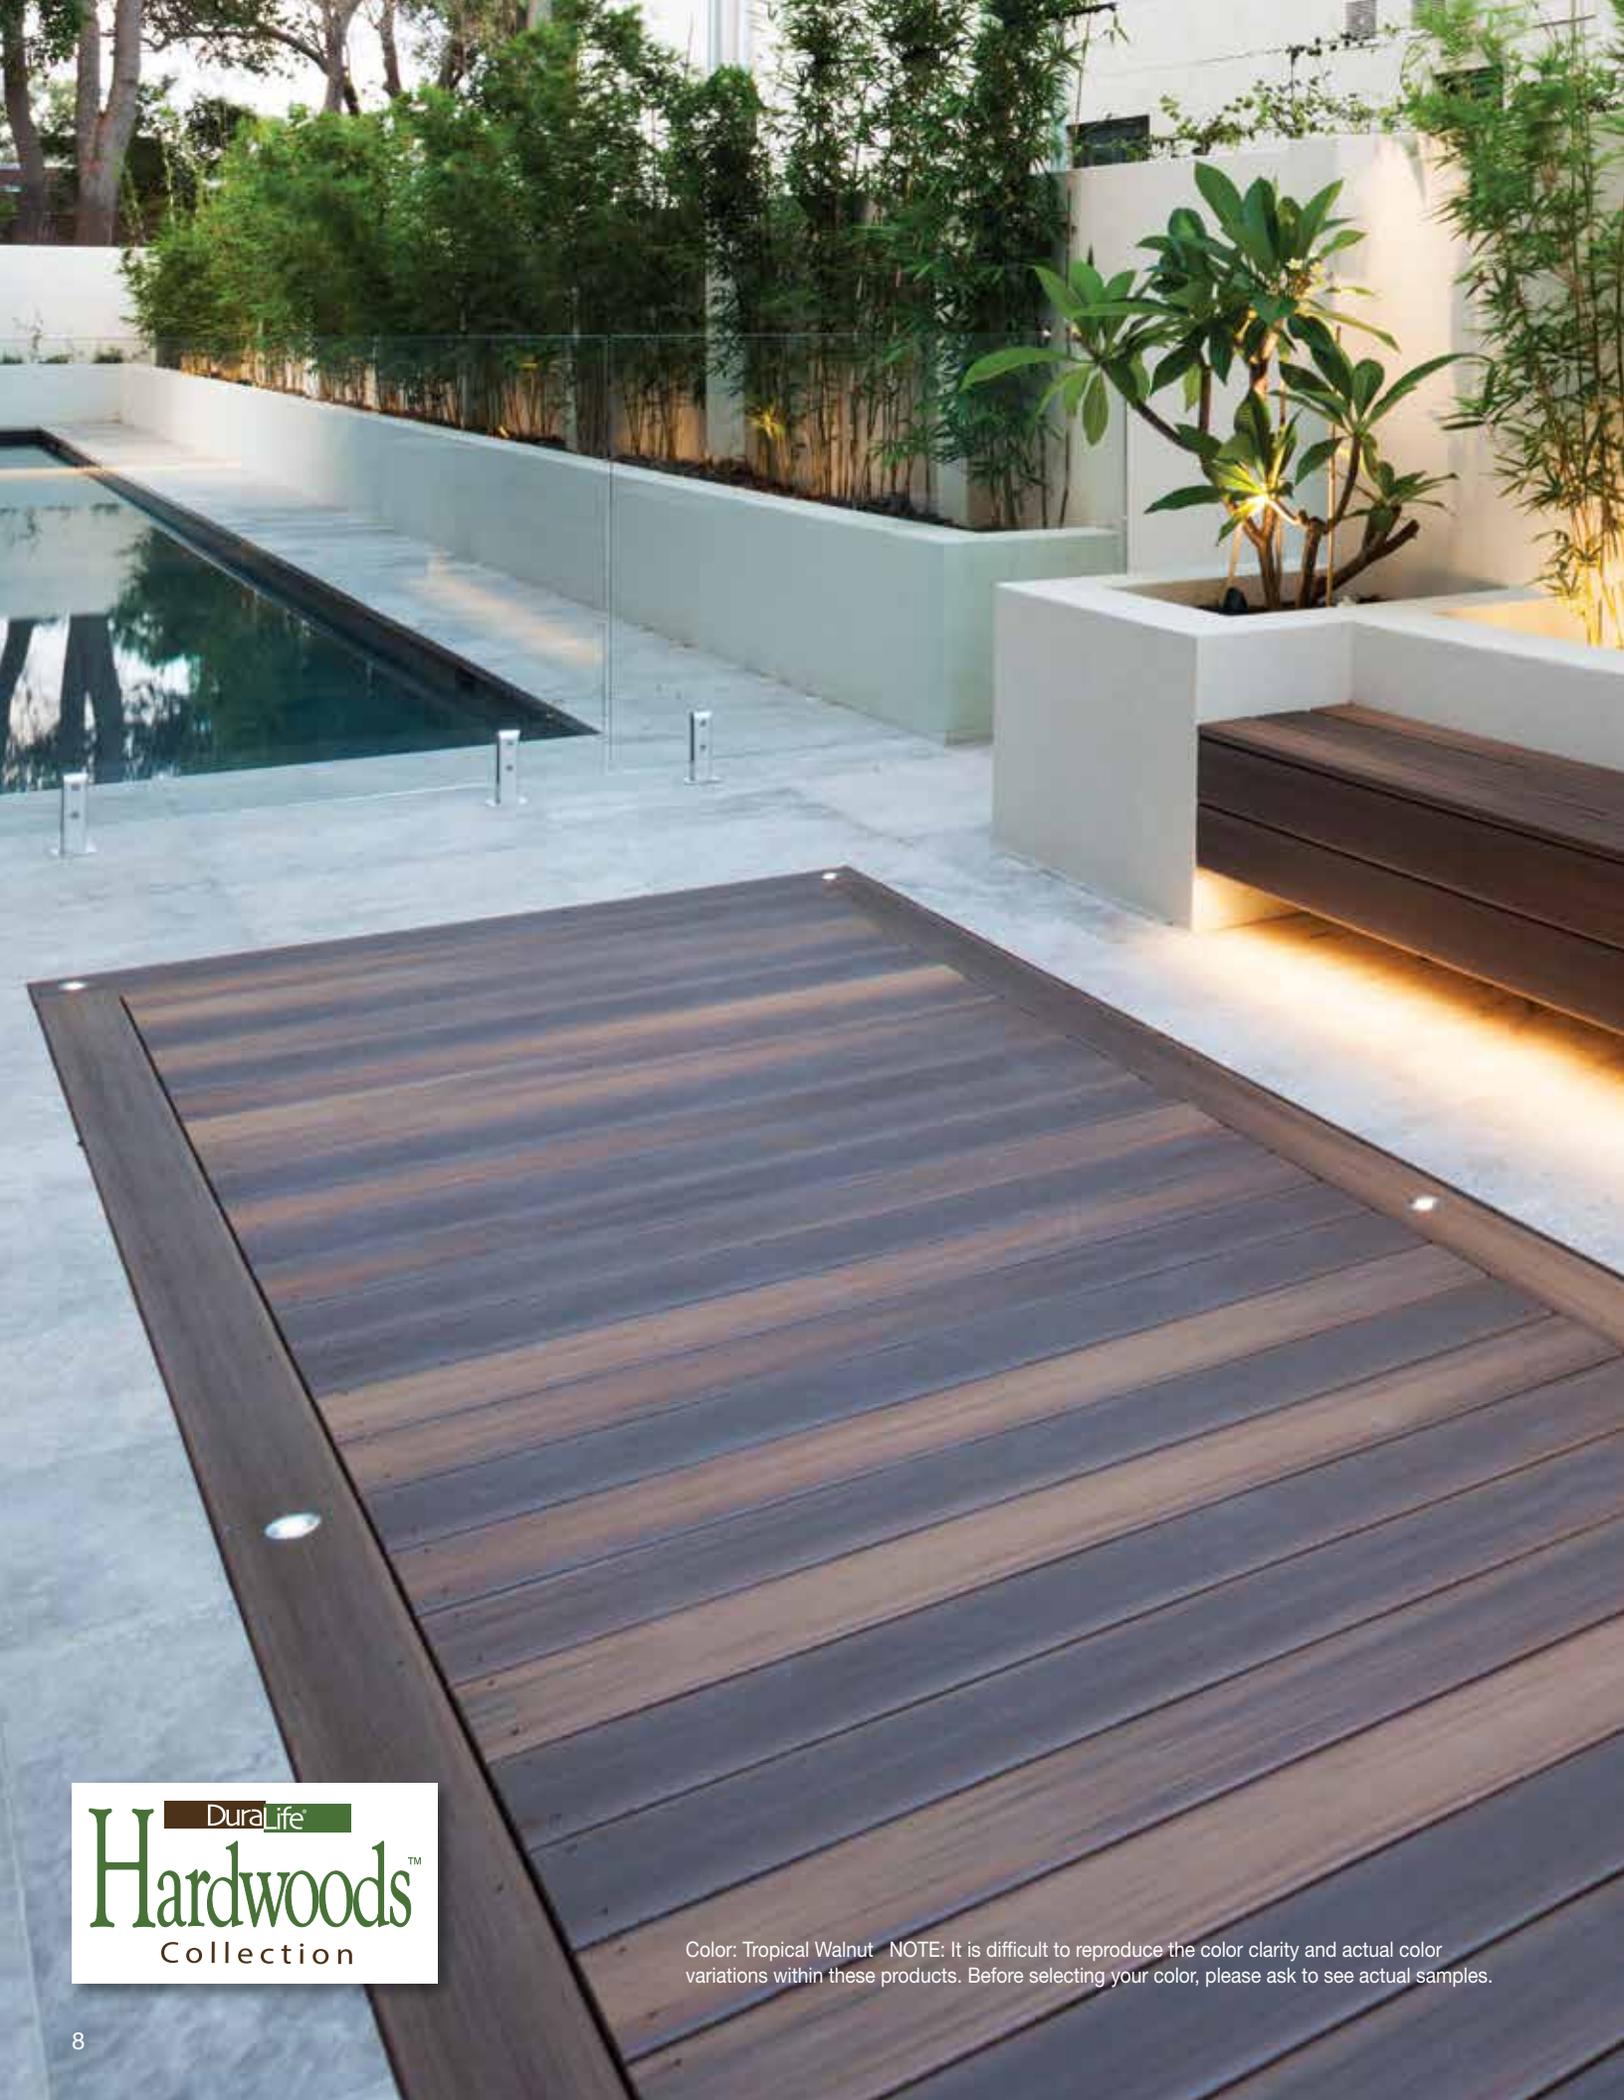

- **750' Minimum:** Minimum order size 750 linear feet\* (ex. 50 - 15' boards)
- **6' to 24' Lengths:** Shortest length: 6' / Longest length: 24'
- **No Extra Cost:** No up charge or extra cost
- **DuraLife Products:** For all DuraLife decking & dock profiles
- **A Little Extra:** Boards will be slightly longer than required (likely by a ½") and will require a minor field cut.

*\* Per length, color, and profile*

who love to **live outside.**

# 1 Pick your COLOR

## Inspired by nature

### HARDWOODS™ COLLECTION

There's something about the warm, natural appearance of beautifully finished hardwood that invites the eye and fires the imagination. The Hardwoods Collection's SolarGuard® Multi-Layered Finishing System ensures the hardwood glow of your decking is durable and highly resistant to stains and fading.

**GOLDEN TEAK**

**BRAZILIAN CHERRY**

**TROPICAL WALNUT**

**GARAPA GRAY**

DuraLife  
**Landscapes™**  
 Collection

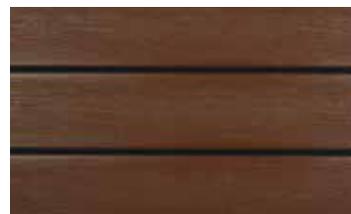

Color: Coastal Gray NOTE: It is difficult to reproduce the color clarity and actual color variations within these products. Before selecting your color, please ask to see actual samples.

# 1 Pick your COLOR

## Natural earth tones

### LANDSCAPES™ COLLECTION

The relaxing earth tones featured in our eco-friendly Landscapes Collection complement any outdoor living space. The DuraLife SolarGuard® Finishing System ensures that your decking will stand the test of time, resisting fading, staining, and remaining vibrant for many years to come.

Color: Tropical Walnut \*NOTE: It is difficult to reproduce the color clarity and actual color variations within these products. Before selecting your color, please ask to see actual samples.

## 2 Pick your PROFILE

Choose from our **Siesta™**, **MVP™**, or **Starter™** profiles to meet your specific requirements for design, performance, and value. All four collections are made from the same durable material, offering different levels of performance, value, and function. Siesta, MVP, and Starter profiles are available in any of our eight Hardwoods™ or Landscapes™ colors.

**Premium quality decking** for ultimate performance and durability, available in DuraLife Landscapes and Hardwoods Collections. Rated the top performing composite decking product by the leading consumer advocate publication in the U.S.

**Gorgeous durable decking** at a maximum value. Made from the same durable composite material as our DuraLife Siesta Profile decking, DuraLife MVP is the choice for value-conscious homeowners looking for beautiful, low-maintenance decking at an affordable price.

**Create a stunning border** with DuraLife Starter Profile decking. The Siesta Starter Profile works together with our Siesta and MVP boards to hide the exposed edges of perimeter deck boards and stair treads, creating a clean, professional appearance.

**Perfect for clean edges** with DuraLife Square Edge Cap Board. The Square Edge board lets you create a deck top surface on your railing or can be used for other custom projects where a clean edge is needed on both sides of the board. Available in 4 Hardwoods and 4 Landscapes colors.

### DuraLife Color Matched Deck Board End Caps

DuraLife deck board end caps provide a finished edge appearance when a picture frame decking installation technique is not employed. Fits all DuraLife decking profiles. Great for stair treads!

**DuraLife®**  
Dock Profile

# Dock & Boardwalk Profile

## Rugged marine-grade planking stands up to any weather

DuraLife Dock & Boardwalk planks feature capped composite technology protection. It's the first dock plank with a unique, co-extruded layer that provides added resistance to mold, mildew, stains, weather, wear, and fading. The heavy-duty profile spans 24 inches and is designed for both commercial and residential marine applications. DuraLife Dock planks are rugged and feel very stable.

- They contain no harmful chemicals to leach into the water.
- Manufactured using recycled materials—eligible for LEED®-based projects.
- Proven co-extruded, capped surface protection on all four sides.
- Deeply embossed wood grain that has excellent traction, even when wet.
- Available in Coastal Gray. Additional colors (see Landscapes colors) are available for larger projects.
- 16' standard length. Custom lengths are available for larger projects.

**FOUR** easy-to-install

## 1 **DuraLife Step-Clip®**

**It's a Snap!** The patent pending Step-Clip system reduces deck installation time by up to 50%. No spacing, extra measuring, or grabbing for fasteners, and less time bending up and down.

- **Faster:** Step-Clip reduces decking installation time by up to 50%.
- **Easier:** Spend less time on your hands and knees during deck board installation compared to traditional methods.
- **Efficient:** Decking can be laid out in advance to ensure that decking appearance is pleasing to the homeowner, and the contractor can install special cut boards around posts and other obstructions after all other boards are in place.
- **Easy to Replace:** If a deck board should be damaged, Step-Clip makes replacing damaged boards significantly easier.
- **No Joist Protection Tape:**

The strip protects the top of the joist from water damage, rot, and decay.

- **No Special Tools:** Install interlocking strips along joist with a nail gun or hammer.

**Most Innovative:**

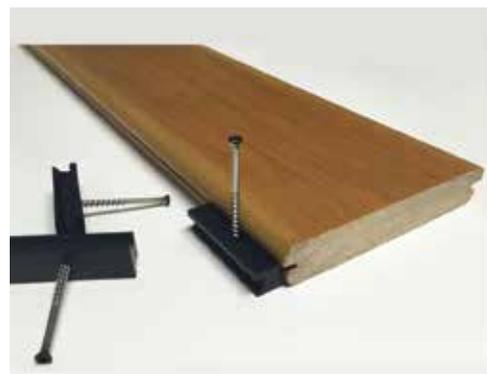

# Fastening Systems

systems designed for your DuraLife Decking

## 2 DuraLife Fastenator™

### A clean and beautiful look

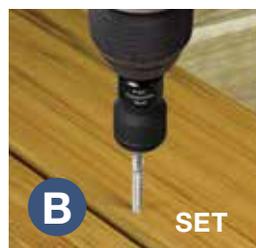

Strong, durable, and easy to install, the Fastenator Hidden Fastening system provides a stable, barefoot-friendly surface and improves the aesthetic appeal of the deck. Great for all traditional decking installation methods including angled or herringbone deck patterns and stair treads.

## 3 DuraLife Starborn® Pro Plug

**The best way to hide** and blend colors when using a traditional face-screw installation method. Perfect for Starter profile boards and stair treads. Starborn Pro Plug Hidden Fastening system is designed for traditional capped composite deck surfaces and includes eight standard colors that perfectly match DuraLife decking boards. For use with Siesta and Starter profiles only.

## 4 DuraLife Starborn® Color Matched Screws

**A plug-less system** with color matched screws to allow for an easy install. In addition, we are also offering a depth setter tool to assist in setting all the installed screws at the same depth in your deck boards. Available for all decking colors as well as for fascia boards. Available for fascia is a pre-drilling tool which creates an oversize hole for the fascia screw, so the fascia board hangs from the screw and can expand and contract without putting a large amount of force on the fastener.

DuraLife Bella Premier Series

Railing is made from an engineered PVC composite material that won't absorb moisture and reduces the rattles and squeaks commonly associated with vinyl railing.

DuraLife®

# Bella Premier

Railing

**REST EASY** knowing that your Bella Premier Series Railing is made with high quality materials that will stand the test of time and is backed by an industry leading Transferable Limited Lifetime Warranty.

### 3 Pick your RAILING

Bella Premier Series Railing is made from Compositocore®, an engineered PVC composite material that won't absorb moisture, and reduces the rattles and squeaks commonly associated with vinyl railing. Bella Premier Series Railings offer attractive options like hidden bracket hardware, LED lighting and composite deck boards for the top rail, creating a handy, flat top rail perfect for entertaining.

#### FEATURES:

- Compositocore® core features no wood
- Contoured rail design with architectural details
- Hidden bracket hardware
- Deck board top rail option
- Matching post tops, including LED lighting
- 6', 8', and 10' level rail kit lengths
- 6' and 8' stair rail kit lengths
- 36" and 42" level rail heights (10' available in 36" height only)
- 1 3/8" square or turned, or 3/4" (black) round aluminum balusters
- Multiple post options available including 4" x 4", 5" x 5", and 6" x 6"
- ADA Hand Rail options available

Choose traditional square baluster or mix it up with 3/4" black round aluminum.

Add a deck board top to match your DuraLife decking color.

**WHITE**

**KHAKI**

### Gate Kit

Build a gate with our gate kit – including everything you need to build our matching gate with Bella Premier Level Rail Kit (purchased separately).

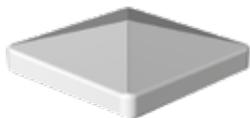

### Ready for entertaining

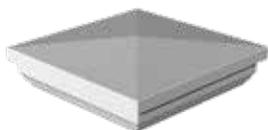

The Bella Premier deck board adapter fits on top of the rail and allows for the addition of a DuraLife deck board. The perfect solution for resting drinks or plates while entertaining friends and family on your deck!

Classic styling, durable finish, and ease of installation make our VersaRail a perfect choice for any application.

DuraLife®

# VersaRail®

Railing

**REST EASY** knowing that your VersaRail Aluminum Railing is made with high quality materials that will stand the test of time and is backed by an industry leading Transferable Limited Lifetime Warranty.

### 3 Pick your RAILING

Made of powder-coated aluminum, VersaRail pairs beautifully with more contemporary and high-end architecturally designed homes. To ensure durability, especially in seacoast installations, VersaRail has been tested to withstand salt spray up to 10,000 hours. VersaRail also provides the option to use DuraLife composite deck boards as the top rail, opening a range of great design possibilities.

#### FEATURES:

- Powder-coated aluminum finish tested to over 10,000 hours of salt spray
- Patented ProLock® locking strip secures rails to balusters with no screws
- Architectural-styled flat top or stylish contoured top rail options
- Matte Black, Matte Bronze, White color options
- Standard 2.5" factory assembled surface mount post with pyramid post cap and trim ring
- Standard 2.5" fascia post option
- Larger 4.25" post with mounting kit and post top in matching VersaRail colors
- 6' and 8' level and stair rail kit lengths
- 36" and 42" level rail heights\*
- ¾" square balusters
- ADA Hand Rail options

\*42" only available with Classic top rail style.  
42" stair kits only available in 8' lengths.

Durable and strong, VersaRail is a great choice for both residential and commercial applications and its patented locking strip system makes it quick and easy to install.

**MATTE BLACK**

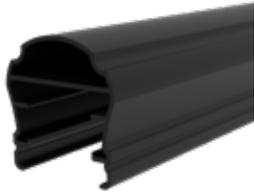

**MATTE BRONZE**

# Decorative Screen Panels

## Instant Ambiance

- **Decorative Screen Panels and Frame Kits** Add privacy and style to your outdoor living environment with a selection of Decorative Screen Panels designed and built to weather any weather.
- **Unique Composition** A durable textured matte finish and double the thickness of traditional lattice make Decorative Screen Panels a sturdy yet elegant alternative to lattice. Low thermal expansion and contraction means they stand up to any weather.
- **Frame Kits** Frame Kits make it easy to install panels up to three panels high, and posts can be used as end or mid posts for custom configurations. Purchase additional mid or corner post kits to create continuous sections. Durable powder-coated aluminum frames can be surface mounted, are easy to install, and come in matte black.
- **Design Versatility** 2' x 4' Decorative Screen Panels can be installed horizontally to finish the base of a deck, hung vertically for stylish privacy, or installed with our new frame kits to create a privacy screen on your deck, porch, or patio.
- **Unique Designs** Express yourself! Decorative Screen Panels are available in four unique designs ranging from organic to modern so you can find the one that suits your style.
